

RiteRate Natural Gas

For real peace of mind

Trevor could never predict his dog's appetite...
but he could always predict the price of his gas!

The key to saving money on fixed-rate Natural Gas (when compared to the variable rates of Enbridge or Union Gas) is to sign up when the market is at or near bottom relative to long-term trend, as it is today.

Don't wait for prices to rise. Customers with the foresight to sign during low market-price periods did well and saved.

RiteRate Electricity

For total convenience

Trevor could never match his socks... but he could always wash them without worry about peak hours!

By paying a rate tied to the Hourly Ontario Energy Price (HOEP)** -- but without time-of-use restrictions -- and a monthly fee of just \$9.95 (33¢ a day) you can use all the Electricity you want, whenever you want. Your rate stays the same no matter what time of day, so you can live life on your schedule regardless.

We're so convinced you'll love RiteRate Electricity, we give you the right to **cancel for free** any time.
